Forecast for Thursday 19 May 2022

Weather: The morning will be mainly dry with bright periods, although a few showers will develop along the west coast later. The afternoon will see more in the way of cloud with a few showers, these most frequent across the west.

Chance of cloud-free hill tops above 800m: 50%, best chance of cloud free summits across Caithness and Easter Ross. Cloud lowering to 700 to 900 metres across western ranges, this most extensive along the west coast.

Low cloud and visibility: Very good visibility outside of cloud with great air clarity. Areas of cloud down to 700 to 900 across western ranges, this most extensive along the west coast.

Met Office Aberdeen Meteorologist's View
Strong winds at height will lead to notable wind chill on Thursday, especially under cloud cover.

Forecast for Friday 20 May 2022
Weather: A mainly dry morning with some hazy sunshine. Thickening cloud will bring widespread rain for a time in the afternoon, some of this heavy and drenching in the strong winds. Drier and brighter weather with the odd shower following on from the west from late afternoon.

Maximum wind: Southerly average speeds around 20 to 30 mph, gusts 40 mph on summits

Chance of cloud-free hill tops above 800m: 50%, best chance later in the afternoon and evening.

Low cloud and visibility: Some patchy cloud around 700 metres on southern upslopes in the morning across the southwest. Then more extensive low cloud in the afternoon as rain arrives, cloud down to 700 metres across western ranges shrouding the tops. Cloud lifting off the hills as it turns drier from late afternoon.

Temperature: **Glens:** Plus 6 rising to 16 Celsius
At 800m: Plus 6 Celsius
Freezing level: Above summits
